

To: Grade 10 Geography Teachers

Agriculture in the Classroom – Manitoba's

Amazing Rangeland Adventure

**is coming to the Manitoba Livestock Expo, Keystone Centre, Brandon, Manitoba
Thursday, November 3, 2011**

***This is a great opportunity to bring your grade 10 students to experience
Manitoba's agricultural industry and its links to
Cluster 3: Food from the Land, Geographic Issues of the 21st Century***

- Students learn about Agriculture in Manitoba by visiting 10 interactive stations staffed by producers and agriculture industry professionals.
- Students get a first hand perspective of agriculture from the people who work in the industry.
- Topics covered include:
 - Stages in beef production
 - Soil and land use management
 - Current issues affecting the beef industry
 - The use of fertilizers - how, where and why
 - Career opportunities in the agri-food industry
 - Environmental sustainability, farm sustainability and protection of watersheds
 - How farm production and viability are affected by human factors such as politics, trade policy, cultural preferences, and environmental factors such as weather
- Teachers receive a package of resources after the event to use in the classroom
- Cost is \$3.00/student. Volunteers and teachers are free.
- Time: 10:15 a.m. – 1:45 p.m.
- Registration is limited.
